POLICE DEPARTMENT

ELMER F. HILLNER, Superintendent

REFER TO DIVISION
Chief's Office

March 8, 1945

Hon. Marvin L. Kline, Mayor,
City of Minneapolis,
Minneapolis, Minnesota

My dear Mr. Mayor:

It is with a great deal of pleasure that I again have the privilege of submitting the Annual Report covering the activities of the Police Department, for the year 1944.

Of the reported cases of crime in Minneapolis for 1944, we have cleared up and have an average of 49.5%, whereas the national average is 23%; which I feel is a very fine record.

Also, in 1944 we received the honor of being in second place in national traffic safety for cities from 250,000 to 500,000 in population. Had we been in the 500,000 class, where we rightfully belong, we would have been in first place.

The juvenile situation has shown a very slight increase over 1943 but during war periods such as we have today, I feel that our juvenile condition in Minneapolis is very good.

The Department for the year 1944 had a very fine year. Some 250 officers attended a 12-day school, eight hours a day. We had instructors from the Federal Bureau of Investigation, the National Association of Chiefs of Police, the County Attorney's office, the City Attorney's office and municipal judges, to all of whom we are very grateful.

In 1944 the Police Department distributed 40,000 colored "Safety Books" to all the school children riding bicycles in the city of Minneapolis, and all its suburbs. Requests were received from several communities in border states, and while the books lasted we accommodate these communities.

I also wish you to know that I am still concerned for Minneapolis on account of the small personnel of this Department, and I hope that in the very near future the city fathers will see fit to increase its personnel by not less than 50 men, and if possible by 250; for I believe that to properly police this city we should have 750 men.

I also wish to state that even with all the trials and tribulations of this position, I have enjoyed it immensely.

Very respectfully yours,
Elmer F. Hillner,
Superintendent of Police.

DETECTIVE BUREAU INTERNAL SECURITY DIVISION

The designation Internal Security Division is appropriately descriptive of the department performed by this investigative unit of the Detective Bureau. At the War's inception, Federal Bureau of Investigation and kindred governmental agencies were faced with the prodigious task of safeguarding the nation's security, while our people were geared to maximum effort required by total war. It was then that the Internal Security Division was instituted as the coordinating link between local law enforcement and these Federal Agencies to work in concert with, and make its facilities available to these agencies for the furtherance of the war effort. That this plan has met with signal success in this area is proven by the following statistical summary of investigations conducted by this division during the year 1944:

Investigations conducted for the Federal Bureau of Investigation

Arrests made by this division

Investigations originating in this division

(Consisting of the following types of cases)

Selective Service cases originating in this division	116
Selective Service Investigations of prisoners in City Jail	121
Investigations in conjunction with Military and Naval Intelligence	262
Investigation and attendance of subversive meetings	8
Investigations of racial disturbances	24
Investigations of subversive activities and individuals	129
Investigations of alleged sabotage	6
Investigations of theft of Government property	7
Miscellaneous Investigations	101
Items of correspondence, statements taken from prisoners, etc.	4
Subversive checks on personnel for defense plants and governmental agencies in excess of	3
German and Japanese Nationals paroled from internment camps and sponsored by this division	

This division is concerned with the following types of investigations and activities:

- Subversive suspects
- Selective Service violations
- Federal fugitives
- Violation of Federal Statutes
- Parole Violators
- Impersonations
- Investigation of refugees
- Confiscation of contraband equipment
- Investigation of sources of propaganda and rumor calculated to impede our war effort or cause dissension among our citizens
- Potential sources of espionage and sabotage
- Location of wanted individuals through the facilities of this division
- Constant re-check of 10,000 enemy aliens in this district of which we have a record
- Personal history checks on Japanese transferred to this area from other centers, over 3500 carded in our files in this area

Of the manifold functions of this division, the sponsorship of enemy aliens is perhaps the most unique in that it might well be called a sociological experiment.

Many of these men have spent months in internment camps, and upon their release are entirely re-oriented to their environment. Living quarters and suitable employment must be found for them and personal counsel given to their problems. The majority of these men, under the terms of their parole agreements, must report weekly to this office and notify us of any change in their employment status or residence.

The results of this experiment—already apparent—have been most gratifying, clearly demonstrating its advantage to both parolee and the Government; as a result it is highly probable that earlier concepts regarding the handling of enemy aliens may be entirely abandoned.

Among the outstanding cases handled by this division during 1944, was the highly publicized Gancy Case. This investigation, originally instituted by this division because the subject's alleged fraudulent and illegal operations in the preparation of a publication dealing with the Pacific—was found to have nationwide ramifications. A comprehensive background investigation of the principal was made, embracing his movements and activities over a period of some twenty years—an investigation which lead through the doors of embassies, legations, the State Department and public officialdom throughout the country. The implications of the case necessitated a collaboration with the United States Immigration and Naturalization Service, and was eventually brought into United States District Court where a conviction was secured under a violation of the Alien Registration Act, the disposition of which is now under appeal. The decision of this court will ultimately determine the citizenship status of more than 150,000 native Filipinos in the United States.

The above figures include traffic violations which, of course, should not be included in frequency statistics. Therefore, the following table is a comparison of the number of boys involved in Court and Non-Court cases (excluding traffic) for the last three years.

	1942	1943	1944
Court (excluding traffic).....	770	1004	1084
Non-Court (excluding traffic).....	154	237	292

As noted above, the Division has also investigated 323 miscellaneous case complaints involving 923 boys. These were such cases as family trouble, disturbing neighbors, petitions, etc. Although these cases have been disposed of with a reprimand, a case record has been kept for future reference.

In addition to the above figures, a further resume of the Division functions is as follows:

At the conclusion of the year 1944, our records show that we handled 413 more boys this year than in 1943. This increase can be mostly accounted for by the increase in traffic cases which were 290 over 1943.

During the year 1944, I have conducted 427 informal hearings involving 553 boys, compared with 429 hearings involving 538 boys in 1943. In spite of the general increase this year, informal hearings have slightly decreased, which is an indication that the offenses committed this year were of a more serious nature, or where the attitude of the boy or his parents were not good, in adequate supervision, etc., have made so many cases impractical to dispose of without Court hearing. These hearings have as usual been conducted in full cooperation with schools, social agencies and parents, in an effort to prevent the pre-delinquent boy from becoming delinquent and acquiring a Court record.

The request for service has also increased this year, but has been well met on account of adequate personnel and equipment. The officers are detailed the same this year as the previous year. One Juvenile Officer and a car is detailed in the 2nd, 4th, 5th and 6th precincts. There is one officer in the Loop, patrolling the streets, theatres and other places where juveniles are attracted to come. This officer is especially instructed to keep a close watch on theatres along lower Hennepin and Washington Avenues, which has been and still is a haven for homosexuals to prey on young boys. One officer is also detailed in the office assisting with the interviews. Two officers and two cars patrol from 4:00 P.M. to midnight, in cafes, theatres, pool halls, bowling alleys, beer parlors, etc., where children may be lured to unlawfully.

The Division has this year, recovered \$20,586.47 worth of stolen property, in addition to considerable property which has been recovered and handed back where no record has been kept.
